Course Outcomes: Master of Computer Application (MCA) 2020-21 A. Program Educational Objectives (PEOs) To provide opportunities for acquiring in-depth knowledge of fundamental concepts PEO1 and IT enabled skills for venerable development. To develop an ability to identify, critically analyze and formulate a computing PEO₂ problem. To promote use of open source technology and encourage for innovative software PEO3 development. To emphasize on awareness of changing trends and career avenues in computer PEO₄ applications and management through various student driven activities. To inculcate human values, professional ethics, research orientation and social PEO5 responsibilities. B. Program Outcomes (POs) By the culmination of this program, the post graduate acquires the ability PO₁ To get acquainted with IT and management enabled skills. To develop software applications to resolve comprehensive problems using PO2 systematic analysis and design approach. PO₃ To integrate and apply the contemporary IT practices. To imbibe learning abilities, skill development and awareness of social concerns. PO4 To demonstrate team work with the ability of leadership, analytical reasoning for PO₅ solving time critical problems. To imbibe the strong human values for responsible professional in IT. PO6 C. Course Outcomes (COs) Semester-I (2020 2 years pattern)

IT11 Java Programming

CO 1	Understand Basic Concepts of OOPs, Java, Inheritance, Package. (Understand)
CO 2	Understand Exception handling, arrays and Strings and multi-threading in Java (Understand.)
CO 3	Understand collection framework (Understand)

Develop GUI using Abstract Windows Toolkit (AWT) and event handling (Apply) CO4 Develop Web application using JSP and Servlet, JDBC (Apply) CO₅

CO 1 Demonstrate linear data structures linked list, stack and queue (apply) Implement tree, graph, hash table and heap data structures (apply) CO 2 Apply brute force and backtracking techniques (apply) CO3

Demonstrate greedy and divide-conquer approaches (apply)

Implement dynamic programming technique (apply) Beobrosuto

Data Structure and Algorithms

IT12

CO4 CO₅

Course Outcomes: Master of Computer Application (MCA) 2020-21

CO I	Distinguish different process model for a software development. (Understand)
	Design software requirements specification solution for a given problem definitions
CO 2	of a software system (Analyze)
	Apply software engineering analysis/design knowledge to suggest solutions for
CO 3	simulated problems (Analyze)
CO 4	Design user interface layout for different types of applications (Apply)
CO 5	Recognize and describe current trends in software engineering (Understand)
	Trees and describe the same
*****	O
IT14	Operating Systems Concepts
CO I	Understand structure of OS, process management and synchronization. (Understand)
	00 (1) 1

Understand multicore and multiprocessing OS. (Understand) CO₂

IT13

IT15

CO 1

CO 2

CO₃

CO 4

CO 5

IT-11L

Explain Realtime and embedded OS (Understand) CO₃ Understand Windows and Linux OS fundamentals and administration. (Understand) CO 4 CO 5 Solve shell scripting problems (Apply)

Object Oriented Software Engineering

Network Technologies Understand the basic concepts of Computer Network, and principle of layering

(Understand) Apply the error detection and correction techniques used in data transmission (Apply)

Apply IP addressing schemes and sub netting (Apply)

Understand the concept of routing protocols, Application layer protocols and Network Security (Understand)

Apply the socket programming basics to create a simple chat application

IT-11L Practicals

Demonstrate Collection framework (Apply)

CO I Develop GUI using awt and swing (Apply) CO 2

Develop Web application using JSP and Servlet, JDBC (Apply) CO3

Apply Data Structure to solve problems using JavaScript (Apply) CO 4

ITC11 Mini Project Create working project using tools and techniques learnt in this semester (Create)

CO₁

Course	Outcomes: Master of Computer Application (MCA) 2020-2
CO 1	Understand Demonstrate the concepts of python and modular programming. (Understand)
CO 2	Apply the concepts of concurrency control in python (Apply)
	Solve the real-life problems using object-oriented concepts and python libraries
CO3	(Apply)
CO 4	Demonstrate the sengent of IO Exception Handling database (Apply)
	Analyze the given dataset and apply the data analysis concepts and data visualization
CO 5	(Analyze)
IT-22	Software Project Management
	Understand the process of Software Project Management Framework and Apply
CO I	estimation techniques (Apply)
CO 2	Learn the philosophy, principles and lifecycle of an agile project. (Understand)
	Demonstrate Agile Teams and Tools and Apply agile project constraints and trade
CO 3	offs for estimating project size and schedule (Apply)
CO 4	Explain Project Tracking and Interpretation of Progress Report (Understand)
CO 5	Analyze Problem statement and evaluate User Stories (Analyze)
MT-21	Optimization Techniques
	CO1: Understand the role and principles of optimization techniques in business
CO1	world (Understand) CO2: Demonstrate specific optimization technique for effective decision making
002	(Apply)
CO2	CO3: Apply the optimization techniques in business environments (Apply)
CO3	20 t til sente and infer for the business scenario (Analyze)
CO4	CO4: Illustrate and inter for the business security (Finally 20) CO5: Analyze the optimization techniques in strategic planning for optimal gain.
CO5	(Analyze)
IT-23	Advanced Internet Technologies
CO 1	Outline the basic concepts of Advance Internet Technologies (Understand)
	Design appropriate user interfaces and implements webpage based on given problem
CO 2	Statement (Apply)
CO 3	Implement concepts and methods of NodeJS (Apply)
CO 4	Implement concepts and methods of Angular (Apply) Build Dynamic web pages using server-side PHP programming with Database
CO 5	Connectivity (Apply)
COS	Country V FF-1/
IT-24	Advanced DBMS
	CO1: Describe the core concepts of DBMS and various databases used in real applications
CO 1	(Understand)
CO 2	CO2. Design relational database using E-R model and normalization (Apply)

Deshamuth

Course (Outcomes: Master of Computer Application (MCA) 2020-21
CO 3	CO3 Demonstrate XML database and nonprocedural structural query languages for data access (Apply)
C0 4	CO4 Explain concepts of Parallel, Distributed and Object-Oriented Databases and their applications (Understand)
CO 5	CO5: Apply transaction management, recovery management, backup and security – privacy concepts for database applications (Apply)
IT21L	Practicals
CO 1	implement python programming concepts for solving real life problems. (Apply)
CO 2	Implement Advanced Internet Technologies (Apply)
ITC21	ITC21 Mini Project
CO I	Create working project using tools and techniques learnt in this semester (Create)
in the same of	Semester-III (2019-22) 3 years pattern
IT-31	Java Programming
CO 1	Understand Basic Concepts of Java and multi-threadingUnderstand
CO 2	Demonstrate Collection framework -Apply
CO 3	Develop GUI using AWT and Swing -Apply
CO 4	Develop Java Applications using Socket, RMI -Apply
CO 5	Develop Web application using JSP and Servlet, JDBC with MVC -Apply
1T-32	Data Warehouse and Data Mining
CO I	Learn and understand techniques of preprocessing various kinds of data -Understand
CO 2	Understand Data warehouse concepts Understand
CO 3	Apply association Mining Techniques on large Data Sets Apply
CO 4	Apply classification and clustering Techniques on large Data Sets Analyze
CO 5	Understand other approaches of Data mining techniques Understand
IT-33	Software Testing and Quality Assurance
CO 1	Understand the role of software quality assurance in contributing to the efficient delivery of software solutions -Understand
CO 2	Demonstrate specific software tests with well-defined objectives and targets - Apply
CO 3	Apply the software testing techniques in commercial environments -Apply
CO 4	Construct test strategies and plans for software testing -Analyze
CO 5	Understand the usage of software testing tools for test effectiveness, efficiency and coverag - Understand
IT-34	Cloud Computing

Course (Outcomes: Master of Computer Application (MCA) 2020-21
CO I	Describe the concepts of Cloud Computing and its Service Models & Deployment Models – Understand.
CO 2	Classify the types of Virtualization – Understand.
CO 3	Describe the Cloud Management and relate Cloud to SOA - Understand.
CO 4	Interpret Moving application s to of Cloud - Apply.
CO 5	Demonstrate practical implementation of Cloud computing – Apply.
MT31	Probability & Combinatorics
CO 1	Apply counting principles to solve the problems –Apply –Apply
CO 2	Apply various mathematical tools to solve problems -Apply
CO 3	Understand and apply basic probability principles.
CO 4	Demonstrate the concept of univariate and bivariate random variable – Apply
COS	Understand and illustrate the probability distributionsAnalyze
IT-31L	Practical based on Java Programming
CO 1	Create Web application using JSP and Servlet, JDBC with MVC
Etaple:	Semester-IV (2019-22) 3 years pattern
IT-41	Python Programming
CO 1	Understand concepts of pythonUnderstand
CO 2	Demonstrate the concepts modular programming -Apply
CO 3	Apply the concepts of concurrency control in python -Apply
CO 4	Solve the real life problems using object oriented concepts and python libraries - Apply
CO 5	Demonstrate the concept of IO, Exception Handling, databaseApply
BM-41	Information System and Security Audit
CO I	Interpret the threats and vulnerabilities from IT system of business software applications Apply
CO 2	Understand Information Security Management System (ISMS) for IT system of business -Understand
CO 3	Apply information security policies and standards for business IT System-Apply
CO 4	Discuss various IS controls for Business Continuity and Disaster Recovery of business IT systemUnderstand
CO 5	Describe information security audit and understand information security IT governance framework. – Understand
MT-41	Optimization Techniques
CO I	Describe the procedural and object oriented paradigm with concepts of streams, classes, functions, data and objects

Course	Outcomes: Master of Computer Application (MCA) 2020-21
	and dynamic inemory management technic
CO 2	
CO 3	Describe the concept of function overloading, operator overloading, virtual functions and polymorphism
- 03	payment philam.
CO 4	Classify inheritance with the understanding of early and late binding, usage of
CO 5	exception handling, generic programming. Demonstrate the use of programming.
	Demonstrate the use of various OOPs concepts with the help of programs.
IT-42	Essentials of Architectural Framework
CO 1	Understand Basics Fundamentals of Architecture and Framework. (Understand)
CO 2	Understand appropriate Architecture Framework design. (Understand)
CO 3	Select appropriate technical and industry specific frameworks. (Understand)
CO 4	Apply the software development process (Apply)
CO 5	Apply the quality of Architecture (Apply)
	The family of the intestate (tippiy)
IT-43	Knowledge Representation and Artificial Intelligence
	Develop a basic understanding of AI building blocks presented in intelligent agents-
CO 1	Develop.
CO 2	Choose an appropriate problem solving method and knowledge representation technique – Choose.
	Apply the different Propositional Logic concepts for knowledge representation-
CO 3	Apply. Analyze and understand the models for reasoning with uncertainty and different
	planning and learning approaches in the field of Artificial Intelligence – Analyze and
CO 4	understand.
CO 5	Demonstrate awareness and a fundamental understanding of various applications of AI – Demonstrate.
IT-41L	Practical based on Python Programming
CO 1	Implement Python programs with conditionals and loops.(Apply)
CO 2	Develop Python programs step-wise by defining functions and calling them. (Apply)
CO 3	Apply Python lists, tuples, dictionaries for representing compound data. (Apply)
CO4	Apply file handling function in Python. (Apply)
CO5	Apply NumPy, pandas, matplot modules. (Apply)
NAME OF VAN	Semester-V (2015-18) 3 years pattern
ITC51	Software Project Management
	Understand the process of Software Project Management Framework and Apply
CO 1	estimation techniques. (Apply)
CO 2	Learn the philosophy, principles and lifecycle of an agile project. (Understand)

Course	Outcomes: Master of Computer Application (MCA) 2020-21
	Demonstrate Agile Teams and Tools and Apply agile project constraints and trade
CO 3	offs for estimating project size and schedule (Apply)
CO 4	Explain Project Tracking and Interpretation of Progress Report (Understand)
CO 5	Analyze Problem statement and evaluate User Stories (Analyze)
TC51P	Project *
CO I	Understand the real-world problem (Understand)
	Express the need of the project through feasibility analysis and the
CO 2	(*) 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1
CO 3	Determine the project plan using appropriate methodology. (Apply)
CO 4	Implement the project design pertaining to the problem. (Apply)
CO 5	Demonstrate communication and team-work skins (Apply)
CO 6	Build and test the solution. (Create)
SSC51	Soft Skills - Group Discussion*
CO I	Understand the key skills and behaviours required to facilitate a group discours
CO 2	p
CO 3	Consider some of the difficult behaviours that can occur in meetings
CO 4	Think of some possible strategies for dealing with these.
CO 4	Timik of some peers
T1-IT51	ASP .Net using C#
CO 1	To understand basics of C# and Web Development.
CO 2	To understand and analyze new web developing techniques.
CO 3	To apply and implement web applications using ASP .Net
T1-IT52	Service Oriented Architecture
CO 1	To understand service oriented analysis techniques.
CO 2	To understand and analyze service design.
CO 3	To understand, analyze and apply Web Service specification standards.
T1-IT53	Big Data Analytics
	Understand the key issues in big data management and its associated applications in
CO 1	intelligent business and scientific computing Acquire fundamental enabling techniques and scalable algorithms like Hadoop, Map Reduce
CO 2	ANO COL in his data analytics
CO 2	and NO SQL in big data analytics Interpret business models and scientific computing paradigms, and apply software tools for
CO 3	big data analytics
	Mobile Application Development
T1-IT54	Mobile Application Development

BestronutB

Course (Outcomes: Master of Computer Application (MCA) 2020-21
CO 2	Develop various Android applications related to layouts & rich uses interactive interfaces
CO 3	Develop Android applications related to mobile related server-less database like SQLITE
TI-IT51L	Mini Project using ASP .Net
CO I	To understand basics of C# and Web Development.
CO 2	To understand and analyze new web developing techniques.
CO 3	To implement web applications using ASP .Net
T1-IT54L	Mini Project Using Mobile Application Development
CO 1	Install and configure Android application development tools.
CO 2	Design and develop user Interfaces for the Android platform.
CO 3	Save state information across important operating system events.
CO 4	Apply Java programming concepts to Android application development.
	Semester-VI (2015-18) 3 years pattern
ITC61	Open Subject & LAB: MIS
CO 1	Study and evaluate existing manual and automated business processes
CO 2	Plan, coordinate, monitor, and control IS development projects
CO 3	Identify opportunities for re-engineering and/or automation
ITC61L	Open Subject LAB
COI	Install and implement open source ERPs
ITC61P	Project (Create)
COI	Create working project using tools and techniques learnt during the program (Create)

	Master of Business Administration (MBA) 2020-21
	A. Program Outcomes (pos)
	1. Generic and Domain Knowledge - Ability to articulate, illustrate, analyze, synthesize and apply the knowledge of principles and frameworks of management and allied domains to the solutions of real-world complex business issues
	2. Problem Solving & Innovation - Ability to Identify, formulate and provide innovative solution frameworks to real world complex business and social problems by systematically applying modern quantitative and qualitative problem solving tools and techniques.
	3. Critical Thinking - Ability to conduct investigation of multidimensional business problems using research based knowledge and research methods to arrive at data driven decisions.
	4. Effective Communication - Ability to effectively communicate in cross-cultural settings, in technology mediated environments, especially in the business context and with society at large.
	5. Leadership and Team Work - Ability to collaborate in an organizational context and across organizational boundaries and lead themselves and others in the achievement of organizational goals and optimize outcomes for all stakeholders.
	6. Global Orientation and Cross-Cultural Appreciation: Ability to approach any relevant business issues from a global perspective and exhibit an appreciation of Cross Cultural aspects of business and management.
	7. Entrepreneurship - Ability to identify entrepreneurial opportunities and leverage managerial & leadership skills for founding, leading & managing startups as well as professionalizing and growing family businesses.
	8. Environment and Sustainability - Ability to demonstrate knowledge of and need for sustainable development and assess the impact of managerial decisions and business priorities on the societal, economic and environmental aspects.
<u> </u>	9. Social Responsiveness and Ethics - Ability to exhibit a broad appreciation of the ethical and value underpinnings of managerial choices in a political, cross-cultural, globalized, digitized, socio-economic environment and distinguish between ethical and unethical behaviors & act with integrity.
1	10. Lifelong Learning – Ability to operate independently in new environment, acquire new knowledge and skills and assimilate them into the internalized knowledge and skills.
1	B. Program Educational Objectives (peos)
1 2 t	I. Graduates of the MBA program will successfully integrate core, cross-functional and inter-disciplinary aspects of management theories, models and frameworks with the real world practices and the sector specific nuances to provide solutions to real world business, policy and social issues in a dynamic and complex world.
	2. Graduates of the MBA program will possess excellent communication skills, excel n cross-functional, multidisciplinary, multi-cultural teams, and have an appreciation

	Master of Business Administration (MBA) 2020-21
	for local, domestic and global contexts so as to manage continuity, change, risk, ambiguity and complexity.
	3. Graduates of the MBA program will be appreciative of the significance of Indian ethos and values in managerial decision making and exhibit value centered leadership.
	4. Graduates of the MBA program will be ready to engage in successful career pursuits covering a broad spectrum of areas in corporate, non-profit organizations, public policy, entrepreneurial ventures and engage in lifelong learning.
	5. Graduates of the MBA program will be recognized in their chosen fields for their managerial competence, creativity & innovation, integrity & sensitivity to local and global issues of social relevance and earn the trust & respect of others as inspiring, effective and ethical leaders, managers, entrepreneurs, intrapreneurs and change agents.
	C. Course Outcomes (cos)
	Semester I
101	Managerial Accounting
CO 1	Explain the fundamental analysis of Management Accounting, Cost Accounting and Financial Accounting
CO 2	Explain the application of management accounting and the various tools used
CO 3	Make inter-firm and inter-period comparison, of financial statements
CO 4	Prepare different budgets for the business
CO 5	Understand cost sheet and different cosing techniques
CO 6	Prepare financial statements of proprietary firm.
102	Organizational Behaviour
CO 1	DESCRIBE the key concepts of organizational behavior.
CO 2	UNDERSTAND theories about how managers should behave to motivate and control employees.
CO 3	ARTICULATE aspects of organizational culture and interpret cultural diversity.
CO 4	BUILD people and leadership skills essential for managerial success.
CO 5	ANALYSE causes of conflict and OUTLINE conflict management strategies that managers can use to resolve organizational conflict effectively.
CO 6	EXPLAIN group and teams dynamics leading to organizational effectiveness.
103	Economic Analysis for Business Decisions
CO 1	Define the key terms in micro-economics.
CO 2	Expalin the key terms in micro-economics, from a managerial perspective.
CO 3	Identify the various issues in an economics context and Deminstrate their significance from the perspective of business decision making.

	Master of Business Administration (MBA) 2020-21
CO 4	Exmine the inter-relationships between various facets of micro-economics from the
	perspective of a consumer, firm, industry, market, competition and business cycles.
CO 5	Develop critical thinking based on principles of micro-economics for informed business decision making.
CO 6	Anticipate how other firms in an industry and consumers will respond to economic decisions made by a business, and how to incorporate these responses into their own decisions.
104	Business Research Methods
CO 1	Enumerate and define various concepts & terms associated with scientific business research.
CO 2	Explain the various types of measurement scales & attitude scaling techniques and their application in the context of business research.
CO 3	Design a variety of data collection instruments for contemporary business research issues and apply the principles of sampling and sample size determination to contemporary business research problems.
CO 4	Analyse and graphically present quantitative data and derive actionable inferences from the same from a decision making perspetive.
CO 5	Construct different types of testable hypotheses and interpret the statistical test outcomes.
CO 6	Formulate alternative research designs for a real-life business research problem and discuss the pros and cons of each design.
105	Basics of Marketing
CO 1	DEFINE the various concepts, terms in marketing and the various company orientations towards the market place.
CO 2	CLASSIFY the various components of the marketing environment of a firm and explain the same in detail.
CO 3	APPLY principles of segmentation, targeting and positioning to real world marketing offering (commodities, goods, services, e-products/e-services.)
CO 4	BREAKDOWN the consumer buying behavior journey into various components and DISTINGUISH between various buying roles for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO 5	DEVELOP and EXPLAIN the marketing mix for real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO 6	ELABORATE on the various types of Product Life Cycles and RELATE them with the marketing mix in the context of real world marketing offering (commodities, goods, services, e-products/ e-services.).
106	Digital Business

	Master of Business Administration (MBA) 2020-21
CO 1	DESCRIBE the conceptual framework of e commerce, mobile commerce and social commerce.
CO 2	SUMMARIZE the impact of information, mobile, social, digital, IOT and related technologies on society, markets & commerce.
CO 3	ILLUSTRATE value creation & competitive advantage in a digital Business environment.
CO 4	EXAMINE the changing role of intermediaries, changing nature of supply chain and payment systems in the online and offline world.
CO 5	CLASSIFY the prevalent digital business models into various groups and OUTLINE their benefits and limitations.
CO 6	EXPLAIN the various applications of Digital Business in the present day world.
107	Management Fundamentals
CO 1	Enumerate various managerial competencies and approaches to management.
CO 2	Explain the role and need of Planning, Organizing, Decision Making and Controlling
CO 3	Make use of the principles of goal setting and planning for simple as well as complex tasks and small projects.
CO 4	Compare and Contrast various organizational structures of variety of business and not-for-profit entities in a real world context.
CO 5	Build a list of the decision making criteria used by practicing managers, leaders and entrepreneurs in routine and non-routine decision making situations and Evaluate and Explain the same.
CO 6	Formulate & Dicuss a basic controlling model in a real life business, startup and not-for-profit organizational context.
109	Entrepreneurship Development
CO 1	DEFINE the key terms, LIST the Attributes and Characteristics of Entrepreneurs features and ENUMERATE the Factors influencing Entrepreneurship Growth.
CO 2	DISCUSS the various theories of entrepreneurship.
CO 3	CONSTRUCT a framework for a typical EDP.
CO 4	OUTLINE the role of Government and various support organizations in encouraging and supporting Entrepreneurship.
	and supporting Entrepreneurship. COMPOSE an inventory of possible entrepreneurial opportunities in contemporary local, regional and national context.
CO 5	and supporting Entrepreneurship. COMPOSE an inventory of possible entrepreneurial opportunities in contemporary
CO 5	and supporting Entrepreneurship. COMPOSE an inventory of possible entrepreneurial opportunities in contemporary local, regional and national context.
CO 5 CO 6	and supporting Entrepreneurship. COMPOSE an inventory of possible entrepreneurial opportunities in contemporary local, regional and national context. CREATE a business plan for an entrepreneurial venture. Legal Aspects of Business
CO 4 CO 5 CO 6 111 CO 1 CO 2	and supporting Entrepreneurship. COMPOSE an inventory of possible entrepreneurial opportunities in contemporary local, regional and national context. CREATE a business plan for an entrepreneurial venture.

	Master of Business Administration (MBA) 2020-21
CO 4	OUTLINE the various facets of basic case laws of each Act from a legal and
	managerial perspective.
CO 5	DEVELOP critical thinking by making judgments related to use of various provisions of the Acts in business situations
114	Enterprise Analysis & Desk Research
CO 1	DESCRIBE the key historical, organizational, market related, financial, governance, leadership and social responsibility dimensions of a real world business organization.
CO 2	SUMMARIZE the regional, national and global footprint of a real world business organization.
CO 3	DEMONSTRATE the use of secondary – offline and online resources to profile a real world business organization.
CO 4	ANALYSE, using tables and charts, the trends in market standing and financial performance of a real world business organization over the last 5 years.
CO 5	COMPOSE a succinct summary of future plans of a real world business organization the company website, shareholders reports and other information
CO 6	IMAGINE the key challenges and opportunities for a real world business organization in the immediate future (1 to 3 years).
117	
115 CO 1	Selling & Negotiation Skills Lab
CO 2	DESCRIBE the various selling situations and selling types.
CO 2	OUTLINE the pre-sales work to be carried out by a professional salesperson.
CO 3	IDENTIFY the key individuals involved in a real world sales process for a real world product/ service / e-product / e-service.
CO 4	FORMULATE a sales script for a real world sales call for a product/ service / e-product / e-service.
CO 5	DECONSTRUCT the pros and cons of sample real world sales calls for a product/ service / e-product / e-service.
CO 6	DEVELOP a sales proposal for a real world product/ service / e-product / e-service and for a real world selling situation.
	Semester II
201	
CO 1	Marketing Management Describe the key terms associated with the 4 Ps of marketing.
CO 2	Compare and Contrast various approaches to pricing for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO 3	Demonstrate an understanding of various channel options for a real world marketing offering (commodities, goods, services, e-products/ eservices.)
CO 4	Exmine the product line of a real world marketing offering (commodities, goods, services, e-products/ e-services.)

Destrosits

	Master of Business Administration (MBA) 2020-21
CO 5	Explain the role of various communication mix elements for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
CO 6	Design a marketing plan for a real world marketing offering (commodities, goods, services, e-products/ e-services.)
202	Financial Management
CO 1	Explain the concept of fundamental financial concepts, especially time value of money.
CO 2	4. 1
CO 3	Analyze he main ways of raising capital and their respective advantages and
CO 4	Analyze he main ways of raising capital and their respective advantages and
CO 5	Integrate the concept and apply the financial concepts to calculate ratios and do the capital budgeting
203	Human Resource Management
CO 1	DESCRIBE the role of Human Resource Function in an Organization.
CO 2	ENUMERATE the emerging trends and practices in HRM.
CO 3	ILLUSTRATE the different methods of HR Acquisition and retention.
CO 4	DEMONSTRATE the use of different appraisal and training methods in an Organization.
CO 5	OUTLINE the compensation strategies of an organization
CO 6	INTERPRET the sample job descriptions and job specifications for contemporary entry level roles in real world organizations.
204	Operations and Supply Chain Managament Operations Services
CO 1	DEFINE basic terms and concepts related to Production, Operations, Services, Supply Chain and Quality Management.
CO 2	EXPLAIN the process characteristics and their linkages with process-product matrix in a real world context.
CO 3	DESCRIBE the various dimensions of production planning and control and their inter-linkages with forecasting.
CO 4	CALCULATE inventory levels and order quantities and MAKE USE OF various inventory classification methods.
CO 5	OUTLINE a typical Supply Chain Model for a product / service and ILLUSTRATE the linkages with Customer Issues, Logistic and Business Issues in a real world context.
CO 6	ELABORATE upon different operational issues in manufacturing and services organisations where the decision-making element is emphasized.

	Master of Business Administration (MBA) 2020-21
207	Contemporary Frameworks in Management
	DEFINE Emotional Intelligence (EQ), IDENTIFY the benefits of emotional
CO 1	intelligence and RELATE the 5 Dimensions of Trait EI Model to the practice of
	emotional intelligence.
CO 2	DESCRIBE how companies achieve transition from being good companies to great companies, and DISCUSS why and how most companies fail to make the transition.
	APPLY the 21 laws that make leadership work successfully to improve your
CO 3	leadership ability and ILLUSTRATE its positive impact on the whole organization.
CO 4	EXAMINE the fundamental causes of organizational politics and team failure.
	EXPLAIN the approach to being effective in attaining goals by aligning oneself to the
CO 5	"true north" principles based on a universal and timeless character ethic.
209	Start Up and New Venture Management
CO 1	DESCRIBE the strategic decisions involved in establishing a startup.
CO 2	EXPLAIN the decision making matrix of entrepreneur in establishing a startup.
CO 3	IDENTIFY the issues in developing a team to establish and grow a startup.
CO 4	FORMULATE a go to market strategy for a startup.
CO 5	DESIGN a workable funding model for a proposed startup.
	DEVELOP a convincing business plan description to communicate value of the new
CO 6	venture to customers, investors and other stakeholders.
211	Business, Government & Society
CO 1	DESCRIBE the economic roles of government in the Indian context.
CO 2	EXPLAIN the macroeconomic crises around the world.
CO 3	ILLUSTRATE the interlinkages between economic growth, poverty and inequality.
	EXAMINE the rationale, success and failures of Public Private Partnerships in the
CO 4	Indian context
	ASSESS the forces for and against Globalization and the socio-economic impact of
CO 5	Globalization
CO 6	DISCUSS the interplay between technology, business and society.
000	
214	Industry Analysis & Desk Research
CO 1	DESCRIPE the key characteristics of the players in an industry.
CO 2	ax by a AA DIZE the management ethos and philosophy of the players in the industry.
CO 3	DEMONSTRATE an understanding of the regulatory forces acting on the mediatry.
	COMPARE and CONTRAST, using tables and charts, the market and financial
CO 4	c and of the players in an industry.
CO 5	for a set is the formation of the industry and its key players.
	PREDICT the future trajectory of the evolution of the industry in the immediate
CO 6	future (1 to 3 years).
	Deshrouts

Master of Business Administration (MBA) 2020-21	
	Marketing Specialization
205 Mkt	Marketing Research
CO 1	Identify and Describe the key steps involved in the marketing research process.
	Compare and Contrate various research designs, data sources, data collection
CO 2	instruments, sampling methods and analytical tools and Summeries their strengths & weaknesses.
CO 3	Demonstrate an understanding of the ethical framework that market research needs to operate within.
CO 4	Analyse quantitative data and draw appropriate Inferences to address a real life marketing issue.
CO 5	Design a market research proposal for a real life marketing research problem and Evaluate a market research proposal.
CO 6	Plan and Undertake qualitative or quantitative Market Research and demonstrate the ability to appropriately analyse data to resolve a real life marketing issue.
206 Mkt	Consumer Behaviour
CO 1	ENUMERATE social and psychological factors and their influence his/her behavior as a consumer.
CO 2	EXPLAIN fundamental concepts associated with consumer and organizational buying behavior.
CO 3	APPLY consumer behavior concepts to real world strategic marketing management decision making.
CO 4	ANALYSE the dynamics of human behavior and the basic factors that influence the consumer's decision process.
CO 5	EXPLAIN the consumer and organizational buying behavior process for a variety of products (goods/services).
CO 6	DISCUSS the use of the Internet, e-commerce & information technology with respect to the changing consumer marketplace and ELABORATE on the various aspects of the changing Indian Consumer.
218 Mkt	Product and Brand Management
CO 1	DEFINE the key concepts and DESCRIBE the elements of a product strategy.
COT	EXPLAIN the process and methods of brand management, including now to establish
CO 2	brand identity and build brand equity. brand identity and build brand equity. Challengers, Followers and
CO 3	Niche Strategies for real life consumer, business products and solver
CO 4	examine the digital space. EXAMINE the key brand concepts by articulating the context of and the rationale of application for real life consumer, business products and services operating in various markets and in the digital space.

	Master of Business Administration (MBA) 2020-21
CO 5	FORMULATE effective branding strategies for real life consumer, business products and services operating in various markets and in the digital space.
CO 6	COLLECT brand audit data using appropriate tools and PROPOSE strategic recommendations for Reinforcing / Revitalizing / Rejuvenating failed Brands for real life consumer, business products and services in various markets and in the digital space.
219 Mkt	Personal Selling Lab.
CO 1	List the key terms in selling and Describe the qualities of Winning Sales Professionals
CO 2	Explain the theories and concepts that are central to personal selling.
CO 3	Apply the interpersonal and team skills necessary in successful relationship selling.
CO 4	Illustrate the use of various sales techniques needed to achieve a profitable sale in a real world scenario for a real world product/ service / e-product / e-service.
CO 5	Develop a customer plan that identifies all elements of personal selling, essential to creating successful sales in a real world scenario for a real world product/ service / e-product / e-service.
CO 6	Create sales presentation for a real world product/ service / e-product / e-service and for variety of selling situations.
	Finance Specialization
205 Fin.	Finance Specialization Financial Markets and Banking Operations
CO 1	RECALL the structure and components of Indian financial system through banking operations & Financial Markets.
CO 2	LINDERSTAND the concepts of financial markets, their working and importance.
CO 3	ILLUSTRATE the working and contribution of Banks and nbfcs to the Indian Economy.
CO 4	ANALYZE the linkages in the Financial Markets.
CO 5	EXPLAIN the various banking and accounting transactions.
CO 6	DEVELOP necessary competencies expected of a finance professional.
206 Fin.	Personal Financial Planning
CO 1	Evaluate client financial statements using ratios and growth rates and by comparing them to relevant norms
CO 2	Apply financial principles to demonstrate sound, practical decision-making in personal financial situations
CO 3	Ability to plan and budget effectively.
CO 4	Prepare financial plan of an individual.
CO 5	Analyse the different investment alternatives
CO 6	Design personal financial paln

	Master of Business Administration (MBA) 2020-21	
219 Fin.	Direct Taxation	
CO 1	UNDERSTAND various basic concepts/ terminologies related Direct Taxation.	
CO 2	EXPLAIN how tax planning can be done.	
CO 3	1	
	ILLUSTRATE how online filling of various forms and returns can be done. CALCULATE Gross Total Income and Income Tax Liability of an individual	
CO 4	assessee.	
CO 5	ANALYZE and DISCOVER intrinsic value of a security.	
CO 6	DESIGN/ DEVELOP / CREATE tax saving plan.	
222 Fin.	Banking Laws & Regulations	
CO 1	DESCRIBE the various legal aspects which need to be followed during daily banking	
CO 1	operations.	
CO 2	DISCUSS the various laws related to banking.	
CO 3	APPLY the various commercial laws for the smooth functioning of banking	
	operations.	
	TITO CO. 1. II. di	
205 HD	HR Specialization	
205 HR	Competency based Human Resource Management DEFINE the key terms related to performance management and competency	
CO 1	development.	
CO 2	EXPLAIN various models of competency development.	
CO 3	PRACTICE competency mapping.	
	ANALYSE competencies required for present and potential future job roles at various	
CO 4	levels and across variety of organizations.	
CO 5	DESIGN and MAP their own competency and plan better and appropriate career for	
CO 3	themselves.	
CO 6	DEVELOP a customized competency model in accordance with the corporate	
	requirements.	
206 HR	Employee Relations & Labour Legislation	
CO 1	SHOW awareness of important and critical issues in Employee Relations.	
CO 2	INTERPRET and relate legislations governing employee relations.	
CO 3	DEMONSTRATE an understanding of legislations relating to working environment.	
CO 4	OUTLINE the role of government, society and trade union in ER.	
CO 5	EXPLAIN aspects of collective bargaining and grievance handling.	
CO 6	DISCUSS the relevant provisions of various Labour Legislations.	
217 HR	Labour Welfare	
CO 1	ENUMERATE the key concepts of the subject matter.	

	Master of Business Administration (MBA) 2020-21
CO 2	DESCRIBE the key aspects of the labour policy regulation in the country.
CO 3	IDENTIFY the applicability of various legislations to variety of real world
	organizations.
CO 4	EXAMINE the traditional concept of labour welfare in the industry.
CO 5	EXPLAIN the conditions of labour and their welfare and social security needs in the country.
CO 6	ELABORATE upon the perspective of labour problems and remedial measures in the country.
221 HR	HR Analytics
CO 1	ENUMERATE the key concepts related to the subject matter
CO 2	DEMONSTRATE experimentation and innovation.
CO 3	USE thinking & decision making ability beyond the existing capabilities and present environment.
CO 4	ANALYSE the behavioral Patterns of an individual & Map the competency- the audit Perspective.
CO 5	EXPLAIN the innovative and formulate strategies which enhance innovative skills and Promote Innovation.
CO 6	FORMULATE the linkage between HR Analytics and Business Analytics.
	Semester III
301	Strategic Management
CO 1	DESCRIBE the basic terms and concepts in Strategic Management.
CO 2	EXPLAIN the various facets of Strategic Management in a real world context
CO 3	DESCRIBE the trade-offs within and across strategy formulation, implementation, appraisal.
CO 4	INTEGRATE the aspects of various functional areas of management to develop a strategic perspective.
CO 5	EXPLAIN the nature of the problems and challenges confronted by the top management team and the approaches required to function effectively as strategists.
CO 6	DEVELOP the capability to view the firm in its totality in the context of its environment.
302	Decision Science
CO 1	Understand role of quantitative techniques in managerial decision making.
CO 2	Understand process of decision problem formulation.
CO 3	Understand applications of various quantitative techniques in managerial settings.
CO 4	Analyze managerial and business problems.
CO 5	Formulate and discuss project management problems.

	Master of Business Administration (MBA) 2020-21
CO 1	Recall and Describe the key concepts of international Business Environment.
CO 2	Understand the relevance of Multinational Corporations (mncs) in global trade.
CO 3	Demonstrate the significance of FDI and FPI in respect of developing economy.
CO 4	Analyze the issues related to Labor, Environmental and Global Value chain.
CO 5	Formulate and discuss the case related to various Agreements under WTO and contemporary global business environment.
308-PM	Project Management
CO 1	DEFINE the key terms and concepts in project management
CO 2	EXPLAIN the Importance of project management methodologies and tools at the distinct stages in the Project's life cycle
CO 3	ILLUSTRATE the importance of PM in most industries and businesses
CO 4	EXAMINE the importance of Leadership specifically in heterogenous and virtual teams as well as governance and approaches to conflict resolutions
CO 5	DESIGN dashboard, status report and index for Key Performance Indicators of project for the Management
310-CG	Corporate Governance
CO 1	RECOGNIZE and REMEMBER the scope of Corporate Governance.
CO 2	UNDERSTAND the role of Board of Directors and Committees in Good Corporate Governance and key mechanism.
CO 3	APPLICATION of empirical methods of Corporate Governance and its impact on the Firms.
CO 4	Analyze the legal framework of Corporate Governance and formulate Internal control policies.
CO 5	Evaluate the legal framework and global perspective of Corporate Governance.
CO 6	FORMULATE and DISCUSS Cases related to CG (Models), their SUCCESS & FAILURES.
	Financial Management
304-AFM	Advanced Financial Management
CO 1	Understand the use of financial management frameworks and integrated business analysis towards organizational strategy.
CO 2	Develop effective financial strategies across all business verticals.
CO 3	Demonstrate the applicability of the concept of Financial Management to understand
CO 4	Apply the Leverage and EBIT EPS Analysis associate with Financial Data in the corporate Analyse the complexities associated with management of cost of funds in the capital
CO 5	Analyse the complexities associated with management of cost of rands in the super-

	Master of Business Administration (MBA) 2020-21
805-IF	International Finance
CO 1	Enumerate the key terms associated with International Finance.
CO 2	Summarize the various the concepts related to regulators, financial markets, Financial Instruments, tax structures at international level.
CO 3	Illustrate the role of international monitory systems & intermediaries in Global financial market.
CO 4	Inspect the various parameters of global financial market and interpret best possible international investment opportunities.
CO 5	Determine the various strategies to start investment or business at the international
CO 6	Formulate the investment plan or business plan by adapting international finance environment.
312-BF	Behavioral Finance
CO 1	Enumerate the key terms associate with behavior finance, investment in financial markets & Corporate finance.
CO 2	Illustrate the various theories associated with behavior finance and parameters of
CO 3	Identify persistent or systematic behavioural factors that influence investors and
CO 4	Analyse the various behavioural finance factors related to corporate & individual investors
CO 5	Interpret various investment strategies of effective investment in the financial market on the basis of various theories and factors of behavioural finance.
CO 6	Plan the systematic approach of corporate and investors towards investment for stable growth on the basis of behavioural finance.
313- TAFM	Technical Analysis of FM
CO 1	UNDERSTAND the applications of technical analysis and the various types of charts and the psychology behind a pattern and its formation
CO 2	Remember the concepts, terminologies, frameworks, tools, techniques and theories of technical analysis taught in the syllabus.
CO 3	Identify Risk Management issues related to market positions
CO 4	MAKE PRACTICAL USE of the Theories, Models, Principles and Frameworks of technical analysis for estimating market prices of different securities
CO 5	ANALYSE AND FORECAST the market prices of securities in order to take and execute investment decisions

	Master of Business Administration (MBA) 2020-21
CO 6	FORMULATE an ideal portfolio of investments with a combination of wide number of securities
320-PFTF	Project Finance & Trade Finance
CO 1	DESCRIBE the concepts of Project Finance and Trade Finance.
CO 2	SLIMMARIZE the key aspects in context with Project Finance and Trade Finance.
CO 3	IDENTIFY the applicability of Project Finance and Trade Finance in Modern business era.
CO 4	EXAMINE the risks involved in Project Finance and Trade Finance.
CO 5	EVALUATE the proposal of securing finance by considering the capital structure and documentation involved
	Marketing Management
304-SM	Services Marketing
CO 1	RECALL the key concepts in services marketing.
CO 2	Target A D. A. and a of Extended Marketing Mix in Services.
CO 3	David and Perspectives in Marketing of Scrives.
CO 4	f ammood markettill till till till till till till til
