14. Give your suggestions to improve the curriculum, if any

50 responses

No

NA

Nothing

Everything is good

No

Make curriculum based on current industry trends.example industry 4.0

None

No suggestions

Adding more skill enhancement based activities instead of just theory.

Promote electives that combine multiple disciplines, such as bioinformatics, financial technology, or design thinking.

None.

Introduce more industry-oriented projects, internships, or workshops, especially for engineering, management, and technical courses

The curriculum was fairly satisfactory. Knowledge was well provided.

Incorporate practical case studies and real-world simulations to enhance experiential learning and align the curriculum with current industry demands.

No more suggestions

Deeknoweb
Director
Vidya Pratishthan's
Institute of Information Technology
Vidyanagari, Baramati Dist, Pune

The curriculum for the MCA program is predominantly theoretical. Considering that MCA is a technical course, the curriculum should place greater emphasis on practical applications and hands-on learning to better prepare students for real-world challenges.

update the syllabus and stop worrying about extra curriculum , in mca we have 2014 technologies still in our syllabus

Improve syllabus and improve internship duration,

Placement

It's good

More application Based syllabus should be there.

MCA 2020 revised pattern is completely useless, but previous 2019 and latest 2024 revised patterns are good!

Nothing else

first sem java is complicated for non it students
many colleges are not getting the bridge course that's why many students will be failed

The curriculum should be updated in 2 year , not 3 or 4 years

14. Please provide your suggestions for enrichment of SPPU curriculum

17 responses

No

NA

Add Latest Technology Subject like Blockchain, Data Analytical Method, AI, Machine Learning,
Practical Training Sessions,

Provide more industry based training.

No any

No suggestions

Very good

To enrich the SPPU curriculum for practical knowledge, consider these suggestions:

Industry Internships: Mandate internships in relevant industries to provide hands-on experience.

Case Studies: Incorporate real-world case studies and problem-solving sessions in coursework.

Workshops & Certifications: Offer workshops on emerging technologies and professional certifications.

Live Projects: Collaborate with industries for students to work on live projects or real-time scenarios.

Skill-Based Labs: Enhance lab sessions with tools, software, and machinery used in the industry to bridge the gap between theory and practice.

Skills Development Workshop

More and more practical things should be include in curriculum. 80% practical and 20% theory syllabus should be design by University.

Focus should be on practical knowledge and students should get basic knowledge from curriculum about what industry needs. Internships should be strict.

Provide teachers for particular subject

SPPU should provide various courses from University to students like payroll course, compliance course, etc so students will able to reach industry or organization requirements.

13. Please provide suggestions if any for the enrichment of SPPU curriculum

4 responses

Practical exposure and real-world case studies could be more integrated across subjects.

Emphasis on soft skills and leadership training seems insufficient for grooming future managers.
